

RACKS, BOXES & CRYOVIALS

CRYO BOXES

Arctiko Cryo boxes are available in 2 versions. They are made of high quality and perfect for short- or long-term storage. Our standard 9x9 boxes fits perfectly in various rack systems and has a storage capacity of 81 samples. The new and innovative 10x10 box are perfectly matched together with the new and smart Arctiko Cryovials that together makes it possible to store 100 samples in only 1 box.

The 10x10 dividers provides 23% additional storage capacity compared to our conventional solution. The boxes are made of high quality durable

polypropylene and can be used in temperatures as low as $-150\text{ }^{\circ}\text{C}^*$. The boxes are autoclavable at $+121\text{ }^{\circ}\text{C}$ for 20 minutes.

With features like graduated alpha-numeric coding, smart closing indication and high-quality durable resin, these boxes are made with the purpose of fast and easy handling.

*internally tested to be able to withstand down to -150°C .

PRODUCT OVERVIEW

The clear lid is connected to the box with special lock 'click on system' to prevent accidental opening. The upper corners of the lid and base are cut with an angle for faster identification and handling.

Optically clear lid and colored base with openings for ventilation.

Numerical coding for each tube enables quick and easy sample identification.

Arctiko 10x10 Cryo boxes fits perfectly with Arctiko cryo vials: 0.5, 1.0, 2.0 and 4.0.

Example of a 81 vial (9x9 / left), and a 100 vial (10x10 / right) cryo box layout

PRODUCT FEATURES

- ▶ Connects to the base with a click to prevent accidental opening
- ▶ Upper edges cut at an angle to ensure proper and fast lid positioning (only 10x10 boxes)
- ▶ Alpha-numerical system on top and bottom
- ▶ Molded in for easy sample identification
- ▶ Autoclavable
- ▶ 4 openings for ventilation
- ▶ Star feet lock
- ▶ Enables one handed opening of vials without taking them out
- ▶ 130x130 DIMENSIONS FITS MOST RACK SYSTEMS

CRYOVIALS

23% MORE SAMPLES WITH THE USE OF ARCTIKO CRYOVIALS AND BOXES, DUE TO THE INNOVATIVE DESIGN.

Arctiko Cryovials is uniquely designed with external threads for safe short- and long-term storage. The cryovials are constructed of high quality special formulated polypropylene which makes the Arctiko cryovials highly resistant and able to withstand temperatures of -196 °C to 121 °C.

Arctiko's Cryovials combined with the innovative 10x10 Cryoboxes, makes it possible to store 100 pcs in only one box without any extra costs involved. Compared with the conventional box, you will get room for 19 more samples without having to compromise with the space.

PRODUCT FEATURES

- ▶ 100 pcs of Cryovials fits in the innovative 10x10 boxes
- ▶ More than 23% more samples
- ▶ External thread design
- ▶ Smart star-foot grip
- ▶ Uniquely designed lids

QUALITY CERTIFICATES

Arctiko's cryovials are designed and manufactured in Denmark ensuring the best possible quality.

- ▶ Quality tested
- ▶ Produced according to GMP guidelines in a cleanroom
- ▶ RNase-free, DNase-free & Pyrogen-free
- ▶ DNA, RNA & ATP-free
- ▶ Sterilized after ISO 11137-2:2013
- ▶ Sterility Assurance Level (SAL) by standard products 10^{-6} according to DIN EN ISO 11137
- ▶ 5 years from date of sterilization - As long as the packaging remains unopened and free
- ▶ Free from detectable heavy metals, BSE / TSE and cytotoxic substances from visible defect

RACKS

MAKE YOUR SCIENTIFIC LIFE EASIER.

Store your freezer storage boxes within organized freezer racks. Arctiko offers stainless steel racks to optimize your freezer space and makes it easy to find the items you desire. Don't waste your time sifting through unsorted samples.

We offer a large variety of racks for our freezers. These racks are made of high-quality stainless steel and help you organize the samples inside your freezer. Our range consists of racks for both chest freezers and upright freezers, either with drawers or with compartments in order to introduce the box from the side.

UPRIGHT DRAWER RACK

Strong stainless steel racks with drawers for easy and practical access to your boxes. The drawers slide smoothly and easily, which facilitates easy removal and insertion.

The upright drawer rack is equipped with a smart grip, which ensures easy handling and finding of necessary samples.

When using racks with drawers, only the relevant drawer with the freezer boxes of interest is pulled-out. All other boxes stay safely in the cold interior of the ULT freezer. Arctiko's UDR are designed for smooth and ergonomic hand-lining, as well as to give a great overview of samples. The upright drawer racks fit all boxes up to 133x133x37 mm.

1 Smart design that optimizes the freezer space

3 Open sides for optimal freezing of Samples

4 Smooth slide of the drawers

2 Smart grip for smooth handling

CHEST FRONT RACK

The chest front rack is designed for optimal suiting of chest freezers. Due to the design and choice of material, these unique racks are extremely solid and long-lasting stainless steel. These racks are easy to work with and give a good grip of the racks, thanks to the smart folding handle on top of the rack.

The box is removed from the front, thus ensuring a good overview. The handle in the top meanwhile ensures easy handling of the racks. The chest front rack fit all boxes up to 133x133x37 mm.

1 Folded handle in the top for easy handling

2 Made of solid and long-lasting stainless steel

3 Optimized sample space due to the smart thin and low weighted stainless steel

4 Fits perfectly for chest freezers (can handle up to 12 boxes)

UPRIGHT SIDE RACK

The upright side rack model features individual compartments for each box, meaning that the box is introduced from the side with the folding vertical handle.

The rack is smart in the event you need to access more samples at the time. Open on both sides of the rack for great airflow around the samples. The upright side racks fit all boxes up to 133x133x37 mm.
